Commissioner for Patents

Response to IDS filed 06/14/04.

Information Disclosure Statement

The information disclosure statement filed 06/14/04 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because Applicant certification under 37 – C.F.R. 1.97 (e) states that the Information Disclosure Statement was cited in a Search Report issued in the corresponding Chinese application on April 25, 2003. Further it goes on to state that “a communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of this statement.” However, it appears that the communication received from the corresponding Chinese application on April 25, 2003 is more than the three months from the filing of this statement. Also, a copy of the 4/25/03 search report for the corresponding Chinese application was not found in the record. The information disclosure statement has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609 ¶ C(1).
